

Publisher's Note

Christina Hunter's *All Out of Womb* is an anthology of true birth stories, including her own. The real life experiences of these mothers are literally told from the front lines, and you will be hard pressed to find anything more moving or informative.

When the initial idea for this book came to Christina, she was thrilled about the prospect of sharing with moms-to-be the reality of one of the greatest moments in a woman's life. Without a doubt, it helps to reveal many of the unknowns and answer a multitude of questions. As well, it's bound to stir up memories in those who have already traveled this path

As these sensitively told stories touch your heart, it will become readily evident that Christina's compassion and conscientious focus on family and community is sincerely reflected in this collection. As an exciting new author who shows amazing promise, Christina has been totally engaged in this process from the very start, and she has certainly been a pleasure to work with. We can't wait to see what's next.

In these times, *All Out of Womb* is a beautiful place to come to, where the melding of love, pain, humour, and joy all culminate in the most miraculous outcome—new life.
