This little book, *Epic Ellie and the Invisible Dragon*, really covers it all for the reader—kids, parents, caregivers, and teachers alike. It is very apparent that the author, Sheralyn Roman, has lived this journey deeply, and wrote this adorable book from a very special place, the heart of a mother.

Her research, attention to detail, and refreshing storytelling style leaves you wanting to read more.

Epic Ellie and the Invisible Dragon will serve as an excellent education tool in so many ways; encouraging dialogue at home and school about this often scary and serious subject, equipping us all with a better understanding of how we can help if we know someone with allergies, and most importantly, empowering kids who have them.

Congratulations again to Sheralyn, for keeping the dream alive of one day writing a book that would bring to light the many challenges of being a kid with allergies; yet, uniquely, at the same time emphasizing all the possibilities that await them as well.
