
Publisher's Note

Feet for Life Podortho® Nursing Advanced Foot and Lower Limb Care represents a significant contribution to a growing industry, both on a societal and professional level. I commend Erin King for her passion and unwavering commitment to create such a comprehensive textbook. The depth and breadth of this textbook will ensure that it becomes a trusted reference for all who invest in themselves to augment their knowledge and competencies in this essential healthcare field.

Erin's attention to detail and concern for quality information and resources for her students and colleagues is admirable, especially given the evolving scope and complexity of advanced nursing in foot and lower limb care.

Erin's continuous effort to enhance her own knowledge is evident in her seeking the best minds and mentorship in podiatry, as well as in the daunting task of writing this book. To say that she is extremely hardworking and impressive is an understatement.

Erin is client-focussed and encourages others to be as well, and it's a privilege to partner with her on this fascinating project and journey.

Warmest congratulations,

Sheri Andrunyk
