

## PUBLISHER'S NOTE

Wendy Poole's debut book, *Remembering – A Time of Great Purpose*, is a masterfully researched, well written story spanning almost a century and crossing three continents. Wendy skillfully meshes actual historic events and timelines with stories that capture our imagination and bring us fully into the moment with the personal and family experiences being narrated.

Wendy has a passion to ensure the history of her family, and those who were important to them, is told with honesty, insight, and humour, and honours their dedication and commitment to the lives they led, and gave, to serve their countries.

It has been such a pleasure to work with Wendy through the writing and publishing process. What comes across so strongly is her focus and attention to detail with the hours and hours of research she did, not only about her family, but the historic events they lived through. You will learn, as I did, so much about the first and second world wars, especially the day-to-day and year-to-year realities of those who lived and fought during these times.

I am thrilled that I C Publishing could assist in bringing this book to fruition. Congratulations Wendy!
